FENCE STYLES

Wood Fences

Affordable and
Long Lasting

Whether you're looking for a wooden fence for privacy, security, or simply aesthetics, our team can work with you to create and install your dream fence for you and your family.

Our team is experienced in the construction and installation of every style of picket and privacy wood fences, and we are privileged to have the creativity to customize your fence to your home's curb appeal. Our fences and gates are built from the most popular and durable types of wood, including western red cedar and pine. A wood fence is a popular choice for homeowners for providing natural beauty, privacy, and security. At Heartwood Fence, we know that selecting a fence is a big decision, and we respect the level of commitment you have for your family.

Vinyl Fences

Durable & Low Maintenance

At Heartwood Fence, we often recommend vinyl fencing for both residential and commercial properties when durability and low maintenance are priorities. Vinyl holds up well in a wide range of climates, won't rot or warp, and maintains its appearance over time. It comes in a variety of styles and profiles, making it easy to match the look and level of privacy you're after.

Vinyl also requires very little upkeep—no painting or staining, just an occasional rinse when needed. For homeowners or property managers who want a clean, consistent look without ongoing maintenance, vinyl is a reliable, long-term fencing option.

Aluminium Fences

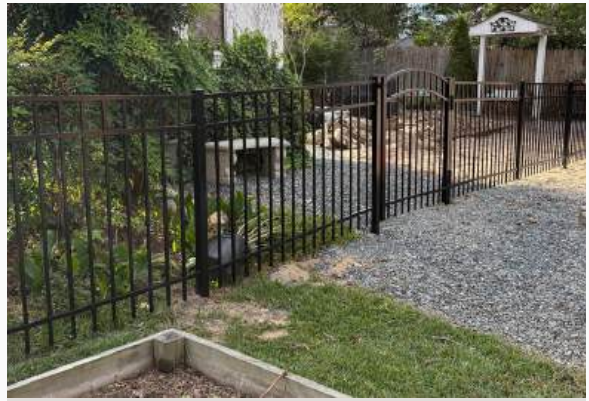

Adaptable &
No Maintenance

If you're looking for a clean, long-lasting fence with minimal upkeep, aluminum is a solid option. It offers the look of traditional wrought iron without the rust, repainting, or ongoing maintenance. Aluminum fencing holds up well over time and works especially well for defining boundaries, pools, and open spaces without closing off sightlines.

At Heartwood Fence, we help homeowners choose the right aluminum style and layout based on their property, terrain, and goals—whether that's safety, aesthetics, or both.

Chain Link Fences

Adaptable &
No Maintenance

Chain link is one of the most practical and cost-effective fencing options we install. It's commonly used for both residential and commercial properties where function, durability, and clear boundaries matter more than ornamentation. Chain link fencing can be built in a range of heights and finished in different colors to suit the property and its use.

At Heartwood Fence, we help customers choose chain link when security, visibility, and long-term value are the priority, and we tailor the layout and specs to fit how the space is actually used.
